

EXAMPLE TWEETS & EMAIL TO CELEBS

Example tweets at 280 characters:

EXAMPLE TWEET #1

Hey @exampleuser! I'm a really big fan of yours, and I was hoping that you'd maybe consider Veganism as something you might look into. Sorry for asking, I just think that between compassion for animals and your influence, you'd really be able to make a difference. Thank you!

EXAMPLE TWEET #2

Hey @exampleuser! I'm a really big fan of yours, and I was hoping that you'd maybe consider Veganism as something you might look into. Sorry for asking, I just think that you'd really be able to make a difference. You can learn more here: <https://youtu.be/UROxRLbVils> (Thanks!)

EXAMPLE TWEET #3

Hi @exampleuser! I'm a really big fan, so I hope you don't mind me asking, but would you consider veganism at all? Sorry for asking, I just know that between your influence and your compassion, you'd be a really good fit for saving animals. Thank you! <https://youtu.be/UROxRLbVils>

EXAMPLE TWEET #4

Hi @exampleuser! I hope you don't mind me asking but I'm a really big fan of yours and I wanted to know if you'd consider looking into Veganism! Sorry for asking, I just thought you'd be able to help the animals a lot with your influence. <https://youtu.be/UROxRLbVils> (Thanks!)

Email Template with information and sources:

HEY EXAMPLE NAME! I'M A REALLY BIG FAN!

Hi [their name], I know that this email will probably never make it since you probably get thousands of them, but I really wanted to try anyways! First, I wanted to say that I really loved your [performance / book / latest album]. I really enjoyed specifically [add personal note] and I'm excited to see what you release next!

Okay so I hope you don't mind me asking and I know it's a bit out of the blue, but would you consider Veganism at all? Sorry for asking, I just know that between your influence and your compassion, you'd be a really good fit for saving animals.

It's really easy, delicious, it's way healthier than a meat/dairy diet, and it's the biggest way you could reduce your footprint on the environment. Even more importantly (for me anyways) is how much of a nightmare the meat and dairy industry treats and kills animals that just want to live.

If you have some time, I couldn't begin to express how grateful I'd be if you looked at these videos below, they really helped me convert to a more plant-based diet:

Dairy is Scary: <https://www.youtube.com/watch?v=UcN7SGGoCNI> (5 minute video)

Cowspiracy: <https://www.netflix.com/watch/80033772> (Environment / Animals)

Forks over Knives: <https://www.forksoverknives.com> (Health)

Earthlings: <https://www.youtube.com/watch?v=BrIBSuuy50Y> (Animals) (NSFW)

The world's largest Health, Nutrition and Dietary organizations unanimously agree: plant-based diets are as healthy or healthier than meat. If you have the time, here's the sources to that along with other useful links with backed up sources from reputable world leading organizations:

1. <https://youaretheirvoice.com/veganism-is-healthy>
2. <https://youaretheirvoice.com/the-daunting-facts>
3. <https://youaretheirvoice.com/arguments-debunked>

So yeah, I know that no-one likes a preachy vegan, but I really want to expose the truth behind these things and help save the planet, the animals and our health. My influence is really small compared to what you could do so I thought I'd try to see on the infinitely small chance you'd still be reading this, to consider the videos and links I had above...

Thanks so much either way, I'm still a fan whether or not you decide to try it.

[your name]
